[Web CV](#)

Areas of specialization:

- **E-commerce & Q-commerce** (managing high-load digital ecosystems).
- **Retail** (transforming traditional retail into omnichannel).
- **IT / Digital Products** (leading product teams and launching systems from scratch).
- **Logistics & Supply Chain** (last-mile, fulfillment and dark store infrastructure).

Target positions:

- Chief Executive Officer (CEO)
- Chief Operating Officer (COO)
- Head of E-commerce / E-commerce Director
- Chief Business Development Officer (CBDO)

Experience:

- **LOKO (Fozzy Group) | April 2023 — present**

Context: Q-commerce ecosystem within Ukraine's largest grocery retailer.

- **Deputy Head of LOKO, Strategic Projects & Partnerships | April 2023 — present**

- Strategic management, financial planning, budgeting and product support while scaling business platform turnover 16× (April 2023 — present).
- Unit economics ownership and support toward target operating profit and division EBITDA.
- Platform strategic roadmap and digital product development priorities for the business line.
- Cross-functional coordination across marketing, expansion, commerce, merchants, analytics and holding operations.

- Guest, product and behavioral research as a basis for strategic decisions on commercial verticals.
- Product development events and participation in division and holding strategy sessions.

Key projects and results:

- End-to-end management of major partnerships with international aggregators (Glovo, Bolt Food) and large B2B services (Liki24 and others).
- Business and analytics support for geographic expansion — largest Q-commerce network in Ukraine (60+ cities, 150+ operational zones), ahead of international aggregators, in synergy with the holding operations team.
- Product value architecture (CVP), CJM optimization and Product-Market Fit validation for scaling commercial verticals.
- Dynamic delivery thresholds, surge pricing and two-step payment mechanics to improve unit economics.

• **VARUS Ecommerce | 2020 — 2023**

Context: National supermarket chain; dedicated e-commerce unit for full online sales and omnichannel grocery delivery (E-Grocery).

Deputy Director of E-commerce, Chief Operating Officer (COO) | 2020 — 2023

Strategic management, financial planning and full P&L control of the digital directorate. Development and profitability of the online business model. Cross-functional verticals: assortment, pricing, order picking, last-mile logistics, digital marketing and unified customer service.

Key results:

- Operational audit and greenfield architecture of a new e-commerce platform, including tenders and vendor selection.
- Product development processes with effective sync of internal IT and external developers.
- Infrastructure and financial model for a large dark store, unit economics and business case for budget approval.
- Last-mile logistics rebuild, time-slot standards and cold-chain delivery controls.
- Strategic and social projects including the «Baskets of Good» charity platform.

• **ALLO Group | 2007 — 2020**

Context: National retailer and one of Ukraine's largest e-commerce marketplaces in consumer electronics.

Head of Online Business, Head of Business Development (ALLO-online) | 2016 — 2020

Strategic management, budgeting and operations of the online department. Omnichannel strategy and marketplace platform. Commercial negotiations with key domestic and international partners.

Key results:

- Architecture and scaling of the online store into a high-load marketplace, adaptive website and mobile app.
- End-to-end analytics and ROPO models linking digital traffic to in-store sales.
- In-house digital product structure and Agile sync across internal and external teams.
- Online unit as internal innovation hub accelerating company-wide tool adoption.

Head of ALLO-online Sales, Internet Store Branch Director | 2007 — 2016

Built and scaled online sales infrastructure from a regional office to a national sales department. Full order cycle from lead to delivery. Financial planning, cost optimization and sales process automation.

Key results:

- Logistics rebuild with national carriers and warehouses — shorter delivery times and lower unit logistics cost.
 - Technical specifications for document flow, order processing and customer support in internal IT systems.
 - KPI matrix and differentiated incentive system improving order processing efficiency.
 - Built the Dnipro branch from scratch to target profitability, then promoted to head of the national department.
- ***Private entrepreneur | 2006 — 2007***
 - Built a telematics business: sales and implementation of GPS tracking and fleet monitoring for companies and individuals.
 - ***Play Mobile Technology LLC | 2005 — 2007***
 - B2B mobile telecom: direct sales, corporate client acquisition and corporate subscriptions with national operators.
