Profile

Operator and product leader in e-commerce and retail since 2007: ALLO, VARUS, LOKO / Fozzy Group. I combine operations and P&L ownership with digital product development, channel launches and business efficiency.

Experience covers an operating structure of 150+ people, product-led e-commerce, delivery and platforms, ERP from the business side, and coordinated scaling to 64 cities.

Scale of experience and results

- **×16** — LOKO turnover growth from April 2023 (business outcome; personal contribution in Experience).
- **64 cities** — coordinated geographic scale-up with holding operations and marketing.
- **150+** — ALLO-online operating structure (branches, warehouses, pickup, delivery), 2012–2016.
- **Up to 90%** — availability of target and penetration SKUs in LOKO.
- **ERP** — Oracle JD Edwards business-side rollout: processes, accounting, cutover, reconciliations.

Target positions

- Chief Operating Officer (COO)
- Head of E-commerce / E-commerce Director
- Chief Business Development Officer (CBDO)
- CEO of a small business

Management expertise

- **Operations:** picking, warehouses, pickup, owned/partner delivery, customer service.
- **Finance:** budgeting, P&L, reporting, unit economics, investment cases.
- **People & process:** function leads, KPI, playbooks, cross-functional orchestration.
- **Digital:** platforms and apps, product teams, ROPO, Oracle JD Edwards.
- **Business development:** aggregators, partnerships, geography and assortment, new channels.

Experience

- **LOKO (Fozzy Group) | April 2023 — present**

- **Deputy Head of LOKO, Strategic Projects & Partnerships**

- Growth and efficiency initiatives for the grocery line; owned the aggregators stream including budgeting and sales. Led a team of managers and coordinated holding functions.

- **Results:**

- Launched Glovo / Bolt Food channel: model, terms, processes, stream KPIs.
- Coordinated with holding ops and marketing during expansion to 64 cities.
- Expanded the offer using in-store assortment from offline branches; up to 90% availability of target/penetration SKUs.
- Implemented profitability improvement initiatives: delivery thresholds, dynamic tariffs, packaging, service fees, two-step payment (EBITDA effect under NDA).
- Commercial and legal schemes for new streams, including medicines, with the legal team and partners.

- **VARUS Ecommerce | 2020 — 2023**

- Deputy Director of E-commerce / Chief Operating Officer (COO)**

- E-commerce operating model; 4–5 function leads; directorate P&L. IT/marketing at selected stages; commerce shared with the holding. Prepared and justified investment proposals before holding committees.

- Results:**

- Business and financial development models after audit; operating processes.
 - Tenders and presented business/technology proposals at holding level; day-to-day spend within mandate.
 - New e-commerce platform and owned delivery with specialist teams and vendors.
 - Order-picking process and e-commerce ↔ store-ops protocols.
 - Prepared a large dark-store investment case (ops model, infrastructure, finance).

- **ALLO Group | 2007 — 2020**

- Head of Online / Head of Business Development, ALLO-online | 2016 — 2020**

- Digital platform development, product metrics and engineering budgets. Led product, PMs, design, QA and external engineering teams.

- Website and app development; product support for online-channel KPIs.
 - Early marketplace platform: requirements, priorities, team coordination.
 - ROPO analytics linking online interactions to in-store purchases.

- Head of ALLO-online Sales | 2012 — 2016**

- Operating structure of 150+ people; branch directors and service leads in direct line.

- Branch network and fulfillment: processing, pickup, owned delivery, carriers, after-sales service.
 - Warehouses and stock control; IT specs, playbooks, KPI and incentives.

- Director, Dnipro internet-store branch | 2007 — 2012**

- Built the branch from scratch; later promoted to national ALLO-online leadership.

- Separate project — Oracle JD Edwards (within ALLO)**

- Business-side participation in the Oracle JD Edwards rollout.

- Requirements, specs, ops/service/accounting logic; parallel systems, reconciliations, branch go-live, work with internal audit.
- **Earlier career | 2005 — 2007**
 - Private entrepreneur (2006–2007): GPS fleet monitoring. Play Mobile Technology (2005–2007): B2B mobile telecom.

Education & development

- **Incomplete higher education:** Physics; Enterprise Economics.
- **U Open University:** project management (Lic. UOU2018032503).
- **Executive programs:** leadership, corporate culture, business communications (A. Stanchenko, V. Davtyan, et al.).
- **English:** B2 / Upper-Intermediate.
